Dear Chairman Hundt,

I am a member of the Conemaugh Valley School District's Technology Committee, and I would like to thank you for your dedication in ensuring that all schools and libraries will have affordable access to the Information Superhighway.

The Telecommunications Act and the Federal-State Joint Board discount plan will guarantee that even the poorest will have the opportunity to connect to the Internet and provide distance-learning opportunities. The \$2.25 billion a year will address the needs of all our schools and, importantly, the plan will bring services directly to the classroom where students learn. Your inclusion of internal classroom connections for discounts is vital. This plan is essential for preparing the work force of tomorrow.

The Conemaugh Valley School District would use the discounts to develop secondary and elementary school wide area networks which would provide Internet connectivity for approximately 1200 elementary and secondary school students and staff.

Our students need deep discounts for telecommunications services this year. I urge the FCC to fully support the Joint Board's discount plan for universal service for schools and libraries.

Thank you.

Sincerely,

Jamie Ritter

The \$2.25 billion a year will address the needs of all our schools and, importantly, the plan will bring services directly to the classroom where students learn. Your inclusion of internal classroom connections for discounts is vital. This plan is essential for preparing the work force of tomorrow.

The Conemaugh Valley School District would use the discounts to develop secondary and elementary school wide area networks which would provide Internet connectivity for approximately 1200 elementary and secondary school students and staff.

Our students need deep discounts for telecommunications services this year. I urge the FCC to fully support the Joint Board's discount plan for universal service for schools and libraries.

Thank you.

Sincerely,

Andrew J. Solomon
